

**REDCO** is a multi-disciplinary black empowered company rendering services to the mining, industrial, bio-resource and civil engineering sectors.

**BACKGROUND**

REDCO was established in 2004 and is an innovative consulting engineering company. The company was established by professionals becoming convinced that cost-effective and real value-adding sustainable development can only be approached in a holistic, trans-disciplinary and integrated manner.

**MAIN FOCUS AREA**

Our main focus is closure and rehabilitation of mining and industrial-related contamination as well as storm water management systems. Our expertise spans the entire project life cycle from project initiation, planning, project managing and engineering, to construction, operations and monitoring. REDCO has experience in a range of sites contaminated with numerous contaminants including coal, asbestos, platinum, gold etc.

VAT Reg. No. 437 021 0595  
Company Reg. No. 2003/028745/07

**SERVICES & EXPERIENCE**

**SERVICES:**

- Rehabilitation planning & designs
  - Closure planning & liability assessment
  - Stormwater management planning & designs
  - Implimentation of environmental rehabilitation plans
- Construction
  - Bio-remediation
  - Surface water hydrology
  - Agricultural design projects
