

ABOUT

REDCO is an innovative multidisciplinary company rendering services to the mining, industrial, bio-resource, and civil engineering sectors.

BACKGROUND

Redco was established in 2004 and have more than 20 years' experience in our field of expertise. Our consulting engineering company was established by professionals becoming convinced that cost-effective and real value-adding sustainable development can only be approached in a holistic, transdisciplinary and integrated manner.

MAIN FOCUS AREA

Our main focus is the closure and rehabilitation of mining and industrial-related contamination as well as stormwater management systems. Our expertise spans the entire project life cycle from project initiation, planning, project managing and engineering, to construction, operations and monitoring. Redco has experience in a range of sites contaminated with numerous contaminants including coal, asbestos, platinum, gold, etc.
